Congratulations on qualifying for Round 2 of the Tata NeuSkills Data Analytics Hackathon!

For your second-round submission please create a Google slide or MS PowerPoint document with the following specifications:

- Maximum number of slides in the document is 10 (Excluding Title slide and Thank you slide)
- First three slides after the title slide should be your executive summary of the case – It should contain the answers to the questions asked below along with summary tables of the calculations. Any slide after that should only contain snippets of your interim/rough work which you would like us to go through as further explanation for your summary findings
- In the title slide please add your first name, last name, and e-mail ID
- **Share your submissions as a reply to the same mail you have just received (Subject line – "Data Analytics Hackathon - Round 2 details!")**. Do not submit links to your submission. Share the file directly. If you are working on Google slides or online version of MS PowerPoint, download a copy of the file and share the same
- The submission deadline for this round's case study is 1st May '23 11:59PM. Any submission after that will not be considered
- In case of any queries, please reach out to us on 080-69235800 or send us a mail at interested@tataneuskills.com

Questions (Refer to the attached Excel for the data set)

- What are the chances that a student will answer a question in online class if they have participated in poll but not asked a doubt?
- Find top 3 students in each stream – Define your own parameters and justify why these parameters are a good indicator of performance
- Categorize students into 3 buckets - consistent performance, performance declining, performance improving (Define your own parameters)
- The principal wants to know the best days of the week and time to conduct online classes, help them with this based on past attendance
- Which mode of learning is better suited for students based on grades?
- Design a student report card

*********************************All the best! *********************************
